

Nervous about where we're heading as a country and the planet?
Wondering what you can do to make a difference? We have a plan!

Win Wisconsin → Help Win the Election

- Wisconsin is the key battleground state (PBS Newshour). Trump has visited it 21 times.
- The Democratic Convention will be there while Trump is holding a rally at the same time.
- Find out how the ground support team flipped Wisconsin in the midterm election to vote out Scott Walker and how we can do it in November.

Hear an inspiring, informative presentation by Wisconsin Professor Lew Friedland. Learn how the ground game works and what we can do in California to help make that happen.
